

Capability Statement

QUEENSLAND-BASED COMPLETE METAL FABRICATIONS IS A MULTI-DISCIPLINED MANUFACTURING BUSINESS SERVICING THE CONSTRUCTION, MINING AND PROCESSING SECTORS

Established in 2019, Complete Metal Fabrications manufacture and install Metalwork products, specializing in Platforms, Stair Stringers, Balustrades, Handrails, Screens and Louvre Systems.

Other services include Sheetmetal Fabrication encompassing HVAC Ducting, Flashings, Stainless Steel Benching and General Jobbing.

Our committed team has extensive experience working within the manufacturing and construction industries allowing us to meet the demands of some of the most well-respected companies throughout Queensland.

Working with mild steel, stainless steel and aluminium, our experienced Project Managers and Tradespeople can create the most intricate and complex fabrications from architectural drawings and specifications.

Operating throughout Queensland, Complete Metal Fabrications maintains Open Builders & Structural Steel contractor QBCC licenses.

"Dur attention and dedication to quality is the cornerstone of our success"

SERVICES

- > Structural Metal Fabrication & Erection
- > Architectural Metalwork Manufacture & Installation
- > Sheetmetal Manufacture & Installation
- > Platforms
- > Stair Stringers
- > Balustrades
- > Handrails
- > Screens
- > Bollards
- > Ventilation Louvres
- > HVAC Ducting
- > Flashings
- > Pipe Sheathing
- > Stainless Steel Fabrication
- > Aluminium Fabrication
- > Site Installation

EQUIPMENT

- > 3.2m x 6mm Guillotine
- > 3.2m CNC Press Brake
- > CNC Plasma Cutter c/w 3m x 1.5m bed
- > Punch & Shear
- > Band Saw / Drop Saws
- > Vertical Milling Machine
- > Lathe
- > Radial Arm Drill
- > Sheet Folders
- > Sheet Rollers
- > Seaming Machines
- > Spot Welders
- > Mig Welders
- > AC/DC Tig Welders
- > Oxy Cutting Equipment

Company Name: Complete Metal Fabrications (Qld) Pty Ltd

Central Qld Address: 61 Park Street, Rockhampton QLD, 4701

South East Qld Address: 3/55 Collinsvale Street, Rocklea, Qld, 4106

Postal Address: PO Box 9814, Frenchville QLD, 4701

Phone Number: 07 4922 1387

Email Address: admin@cmfqld.com

ABN: 83 630 686 458

ACN: 630 686 458

QBCC: 15117762

Public Liability: \$20,000,000 "Experience. Expertise."

"Experience, Expertise, Quality, Servicing Queensland Wide"

<u>Simon Flint – Managing Director</u>

Simon has extensive knowledge within the Engineering and Manufacturing industries with a career spanning over 30 years within the UK and Australia.

His career commenced as an apprentice in the north of England, working for a large manufacturing company where he studied Mechanical Maintenance Engineering, successfully completing his apprenticeship and gaining further recognition adding BETEC and CoG qualifications to his portfolio.

In early 2000 Simon relocated to Queensland Australia, where he continued to develop his career within the Fabrication Industry. Over this period Simon has gained substantial experience through a variety of positions including Tradesman, Draftsman, Project Manager and Business Manager, culminating in Business Ownership & Directorship.

Simon's qualifications include a Certificate III in both Mechanical Maintenance Engineering & Heavy Fabrication, along with a Certificate IV in AutoCAD and a Diploma of Project Management.

<u>Christopher Ryan – Director</u>

Christopher has over 10 years experience within the Fabrication and Construction Industries where he has held numerous positions including Project Manager, Contracts Administrator, Estimator, and Business Operations Manager.

Christopher has extensive knowledge and proficiency within the fields of AutoCAD, Microsoft Project, Scheduling, Project Estimating, Project Costing and Sales.

Christopher's experience is complimented by the extensive studies and qualifications that he has gained throughout the course of his career. These qualifications include a Cert IV in Management, Cert IV in AutoCAD, Cert II Fire Protection Inspection & Testing and 5S & Lean Manufacturing accreditation. Christopher is an energetic motivated professional who is both passionate and committed to his projects and clientele.

Joel Hoffman – Project Supervisor – Central Qld

Joel has amassed over 20 years of experience in the metal fabrication industry. Working through the ranks from apprentice Sheetmetal worker, through to tradesman and later fulfilling roles in management, Joel brings a wealth of experience to our organization.

Joel has extensive experience working on large scale resource projects throughout Queensland, including LNG & Power Generation developments.

Joel holds the position of Project Supervisor with Complete Metal Fabrications and leads our on-site installation crews on projects throughout Central Queensland.

<u>Kristian Irwin – Project Supervisor – South East Qld</u>

Kristian holds the position of Project Supervisor with Complete Metal Fabrications and leads our on-site installation crews on projects throughout South East Queensland.

With over 10 years experience, Kristian has worked on multi million-dollar developments from large scale warehouse projects to school and university expansions.

Kristian holds a trade certificate in heavy metal fabrication and is responsible for the quality installation of our metalwork products throughout South East Queensland.

COAMILETE

<u>Nicky Brennan – Administration Manager</u>

Nicky joined the Complete Metal Fabrications team in early 2020 and holds the position of Administration Manager. Nicky has attained a Certificate IV in Business Management and has extensive experience in administrative roles across various industries. Through her efficiency and good communications skills, Nicky ensures the smooth day to day running of our office.

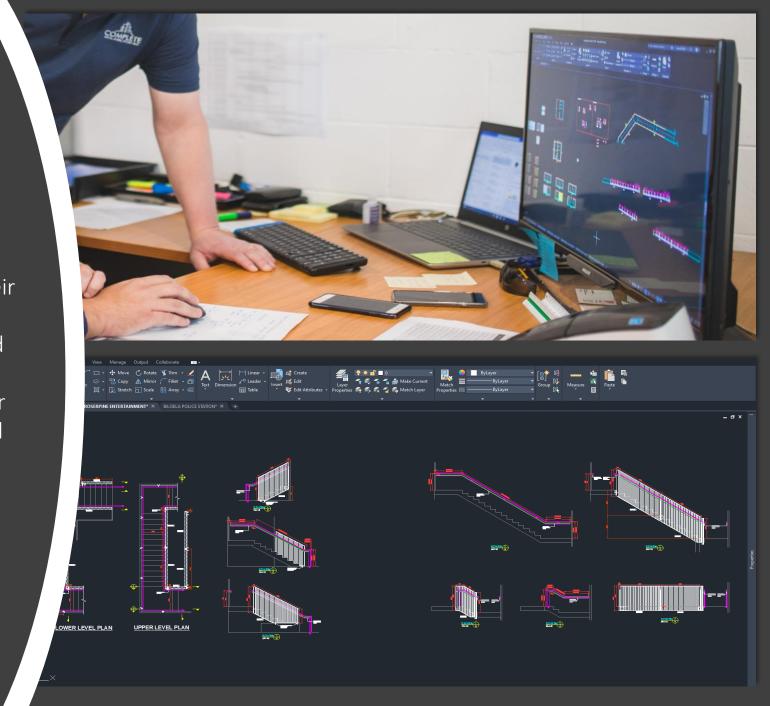

Rob Clelland – Architectural Technician

Rob has a wealth of experience within the construction industry having worked the majority of his career as an Architectural Technician. Rob's knowledge within the industry is invaluable to our organisation. Rob advises our estimating & production teams from the pricing stage through to design and fabrication.

reak

Our in-house CAD design team works alongside architects and their contractors to provide technical design support, producing detailed plans and elevations for approval. We provide a full design service for D&C projects and conduct detailed site measuring when required.
