

# Capability Statement

# What We Do

## QUEENSLAND-BASED COMPLETE METAL FABRICATIONS IS A MULTI-DISCIPLINED MANUFACTURING BUSINESS SERVICING THE CONSTRUCTION, MINING AND PROCESSING SECTORS

Established in 2019, Brisbane based Complete Metal Fabrications specialize in Sun Louvres, Ventilation Louvres and Bespoke Metalwork Fabrications.

Our committed team has extensive experience working within the manufacturing and construction industries allowing us to meet the demands of some of the most well-respected companies throughout the region.

Through our experienced Management Team and Tradespeople, we design, engineer and fabricate specialized fabrications for Commercial & Industrial developments.

Our in-house CAD design team works alongside architects and their contractors to provide technical design support, producing detailed plans and elevations for approval. We provide a full design service for D&C projects and conduct detailed site measuring when required.

Complete Metal Fabrications maintains Open Builders & Structural Steel QBCC licenses.

*"Our attention and dedication to quality  
is the cornerstone of our success"*

# Capabilities

## SERVICES

- > Structural Metal Fabrication & Erection
- > Bespoke Metalwork Manufacture & Installation
- > Ventilation Louvres
- > Sun Louvres
- > Platforms
- > Stair Stringers
- > Balustrades
- > Handrails
- > Screens
- > Bollards
- > Stainless Steel Fabrication
- > Aluminium Fabrication
- > Site Installation

## EQUIPMENT

- > 3.2m x 6mm Guillotine
- > 3.2m CNC Press Brake
- > CNC Plasma Cutter c/w 3m x 1.5m bed
- > Punch & Shear
- > Band Saw / Drop Saws
- > Vertical Milling Machine
- > Lathe
- > Radial Arm Drill
- > Sheet Folders
- > Sheet Rollers
- > Seaming Machines
- > Spot Welders
- > Mig Welders
- > AC/DC Tig Welders
- > Oxy Cutting Equipment

*"Experience. Expertise. Quality.  
Servicing South East Queensland"*

# Who We Are

## Simon Flint – Managing Director

Simon has extensive knowledge within the Engineering and Manufacturing industries with a career spanning over 30 years within the UK and Australia.

His career commenced as an apprentice in the north of England, working for a large manufacturing company where he studied Mechanical Maintenance Engineering, successfully completing his apprenticeship and gaining further recognition adding BETEC and CoG qualifications to his portfolio.

In early 2000 Simon relocated to Queensland Australia, where he continued to develop his career within the Fabrication Industry. Over this period Simon has gained substantial experience through a variety of positions including Tradesman, Draftsman, Project Manager and Business Manager, culminating in Business Ownership & Directorship.

Simon's qualifications include a Certificate III in both Mechanical Maintenance Engineering & Heavy Fabrication, along with a Certificate IV in AutoCAD and a Diploma of Project Management.

## Christopher Ryan – Director

Christopher has over 17 years experience within the Fabrication and Construction Industries where he has held numerous positions including Project Manager, Contracts Administrator, Estimator, and Business Operations Manager.

Christopher has extensive knowledge and proficiency within the fields of AutoCAD, Microsoft Project, Scheduling, Project Estimating, Project Costing and Sales.

Christopher's experience is complimented by the extensive studies and qualifications that he has gained throughout the course of his career. These qualifications include a Cert IV in Management, Cert IV in AutoCAD, Cert II Fire Protection Inspection & Testing and 5S & Lean Manufacturing accreditation.

Christopher is an energetic motivated professional who is both passionate and committed to his projects and clientele.

# Who We Are

## Craig McKay – Project Manager

Craig McKay serves as Project Manager for Complete Metal Fabrications, where he oversees the manufacturing and installation across all projects. With a career spanning 40 years in the fabrication and construction industry, Craig brings unparalleled experience to every project.

Craig has successfully managed and delivered a wide range of multi-million dollar developments ranging from large-scale industrial builds, commercial fit-outs, residential developments, to critical infrastructure projects.

With an exceptional eye for detail, Craig is committed to delivering projects to the highest standard, ensuring excellence from the planning stage through to completion.

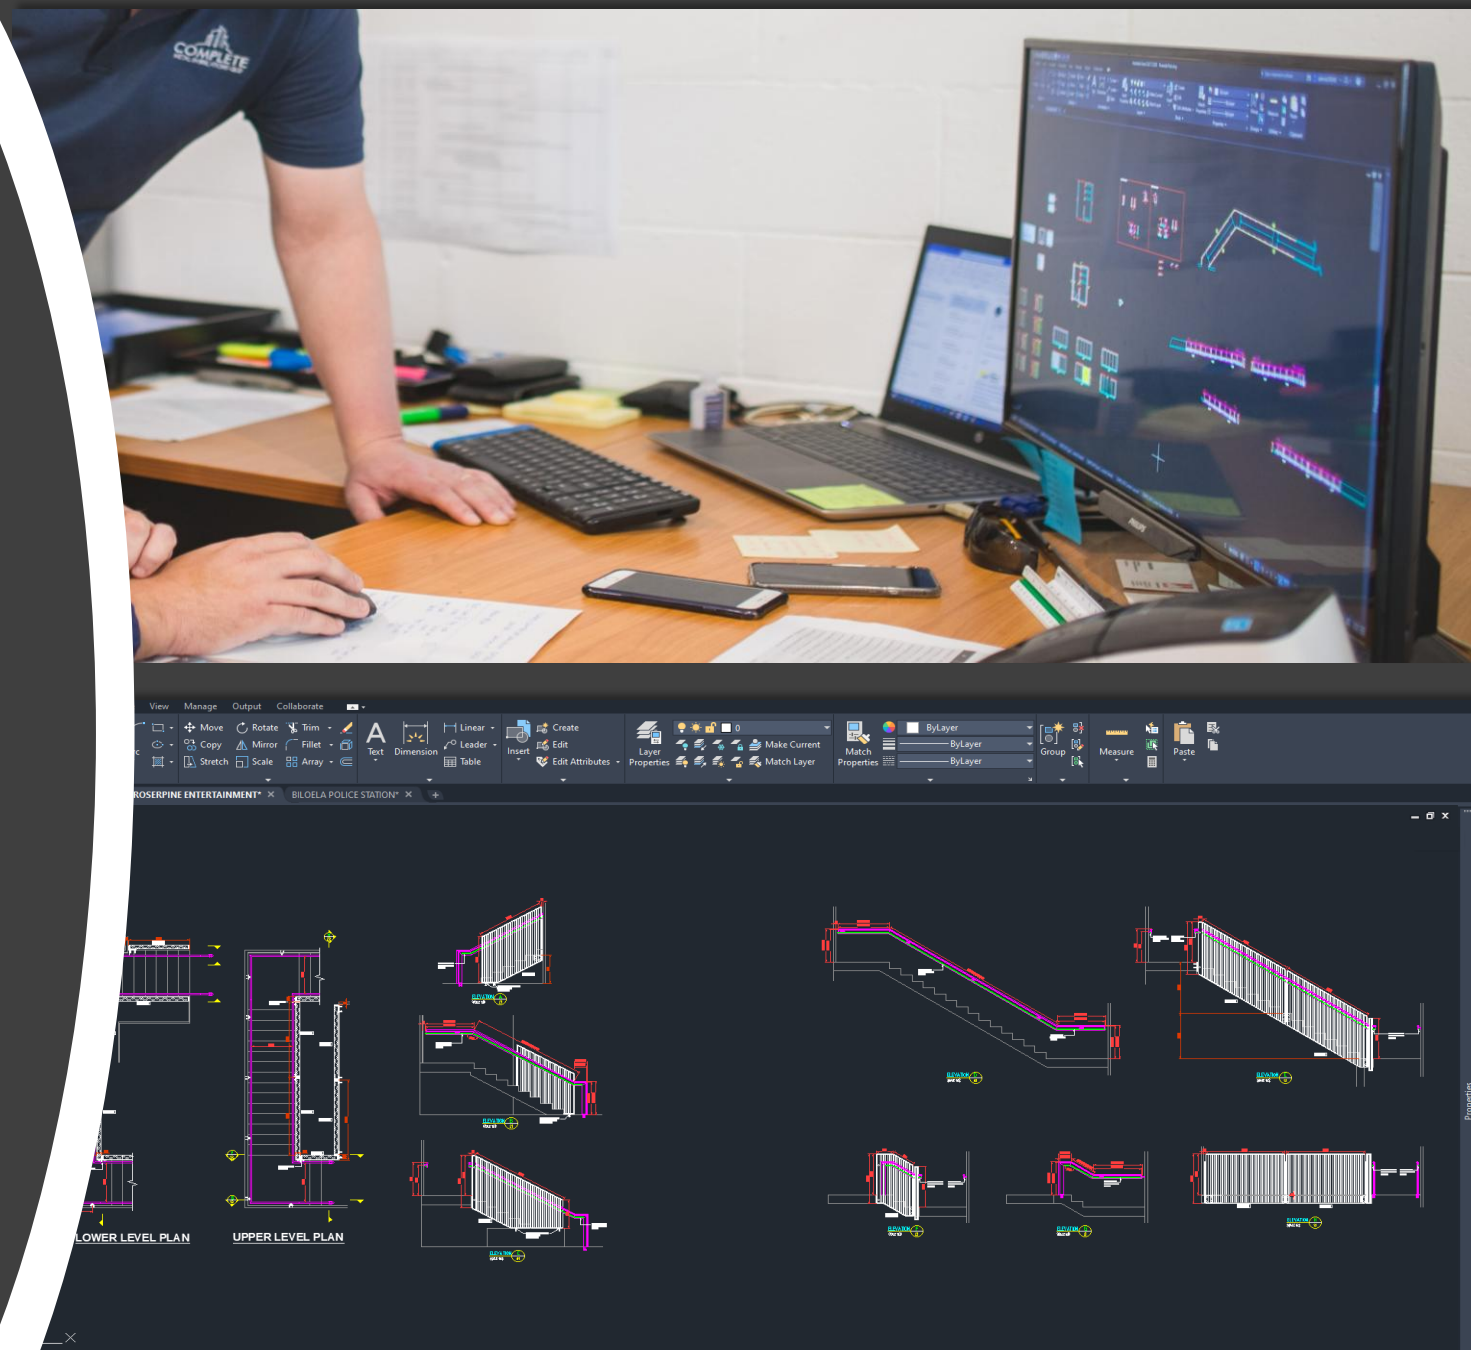

## Kristian Irwin – Project Coordinator

Kristian holds the position of Project Coordinator with Complete Metal Fabrications where he brings over a decade of hands-on experience complementing his Certificate III in Heavy Metal Fabrication.

Progressing through the ranks of Tradesman and Site Installer to his current position as Project Coordinator, Kristian's role primarily consists of administrative support to the project team. His responsibilities include scheduling, purchasing, drafting and assisting the Project Manager.

# Design Drafting

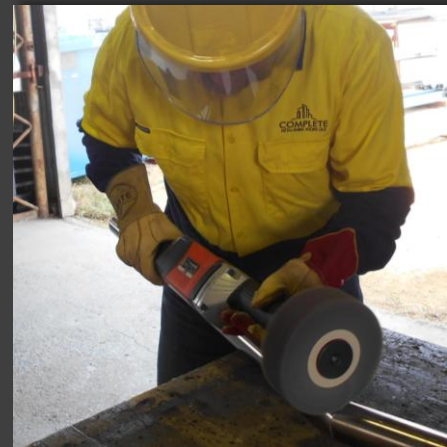

Our in-house CAD design team works alongside architects and their contractors to provide technical design support, producing detailed plans and elevations for approval. We provide a full design service for D&C projects and conduct detailed site measuring when required.
